

1 August 2019

Dear Grower,

We value and encourage your membership of the Association.

Grower membership enables the Association to:

- organize research projects, field days and information forums
- help with the multiplication and maintenance of new varieties of Durum Wheat in conjunction with the plant breeder (Jason Able) of The University of Adelaide with which we have a contract for all new current varieties.
- provide clean seed of purity standard of the new varieties.

Benefits to you as a Member

- Free entry for one member of each business membership or an individual membership to all forums and crop walks with SMS notification
- Durum Seed testing for bread wheat contamination is available on request
- Early information on new Durum varieties for release and other relevant information
- 2 Newsletters providing up to date relevant information of the Durum Industry

Your support of membership is very much appreciated.
