

2021 SADGA & MFMG COMBINED CROP WALK – Sites 3 & 4 (V2)

If it is wet, Alwyn suggests everyone drive through Kaniva to the Edenhope Road and travel south past his house to Grants and Richs Road and turn right heading west and turn right at first intersection, site about 1km on the right. After that we travel back the same way to his house yard, because the NVT Pulse trial access is through his yard past his sheds.

If the weather is dry, we can turn right at the roundabout in Kaniva, and travel south on Madden Street a short distance, then turn left on Budjik Street and travel a short distance ,then turn south on South Kaniva Road and travel down to the NVT site on our left.
